Project Name	Opti Crop: Smart Agriculture Optimization Engine
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Customer Journey Map

OptiCrop: Smart Agricultural Optimization Engine

Phase of Journey	Stage 1 (Before Recommendation)	Stage 2 (During Recommendation)	Stage 3 (After Recommendation)
Actions <i>What does the customer do?</i>	- Searches for best crop options - Enters soil, climate, and location details - Looks for guidance and information	- Requests crop recommendation - Reviews recommended crops - Checks crop details and insights - Compares options if needed	- Selects the best crop - Follows suggested practices - Monitors crop growth - Shares feedback and results
Touchpoint <i>What part of the service do they interact with?</i>	- OptiCrop Website / App - Input Form (Soil, Climate, Location) - Help / Info Section	- Recommendation Page - Crop Details & Insights - Comparison Feature - Tips and Best Practices Section	- Crop Plan / Guide - Reminders & Alerts - Dashboard (Growth, Yield, Profit) - Feedback / Support Section
Customer Thought <i>What is the customer thinking?</i>	- Will I enter the correct details? - Will this give accurate results? - Which inputs are important? - Can I trust this system?	- Are these recommendations right for me? - Which crop is most profitable? - How will this benefit my farm? - What if I need more information?	- Did I choose the right crop? - Is my farm performance improving? - How much profit can I expect? - What can I do better next time?
Customer Feeling <i>What is the customer feeling?</i>	- Curious - Hopeful - Unsure - Seeking guidance	- Interested - Confident - Satisfied - Relieved	- Motivated - Happy - Confident - Satisfied
Opportunities <i>How can we improve this stage?</i>	- Simplify input process - Provide clear examples and tooltips - Add more awareness & tutorials - Support local language	- Improve accuracy of recommendations - Show more crop comparisons - Provide more insights (profit, risk, water need) - Add expert tips and explanations	- Provide reminders and alerts - Show clear reports and analytics - Collect feedback for improvement - Offer personalized suggestions
