

Project Initialization and Planning Phase

Date	27 July 2026
Team ID	
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statement:

This phase defines the core agricultural problem addressed by OptiCrop. The system helps farmers identify the most suitable crop using soil nutrients (N, P, K), temperature, humidity, pH and rainfall. It aims to reduce crop failure, improve yield and support sustainable farming through AI-based recommendations.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A farmer	Select the best crop for available soil and weather conditions.	Uncertain climate and soil conditions affect crop selection.	Limited access to accurate AI-based recommendations.	Confident about improving productivity and farm income.
